

Prayer Hands Mobile

Items needed to make a hand mobile:

1. Child's handprint traced on card stock paper or copy hand template.
2. Hanger
3. Heavy thread

Have your child color a design or picture on one side. On the other side have your child list 1 to 5 prayers. For instance, the child can list each member of the family; list their family pets; list items they need help with (such as riding a bike; reading; spelling; making friends); list 5 friends; or list 5 ways to help someone. Then use this time to talk about family, friends, animals (caring for God's animals; endangered species), their concerns.

Make several hands and string them onto the hanger at various lengths. Hang on a rod or hook. Add more hands over time and string onto other hands or the hanger.
